Professional Experience

TMC MARINE PTE, Singapore

Managing Director – TMC Singapore (March 2020 – Present)

Consultant Master Mariner (November 2017 – February 2020)

Undertaking a wide range of marine claims & accident investigation works, legal disputes, suitability surveys, inspections and audits.

Particular focus on oil & chemical cargo/systems/due diligence. Chemical tanker cargo claims, cargo tank coating suitability and failure investigations for both coating manufacturers and ship owners.

Vessel navigational & pilotage audit & assessment. Vessel management & operational best practice advice, assessment of fixed and floating object damages, grounding incidents, vessel condition & vetting, TMSA, personal injury, pollution, risk and safety.

V.SHIPS ASIA GROUP PTE LTD.

Company providing technical, crewing, financial & administrative management of all vessel types from multiple global offices

General Manager, Singapore

May 2015 – Oct 2017

Piloting the management of a fleet in excess of 70 ships with oversight of key Asian offices of Singapore, Karachi, Jakarta, Korea, PNG, I shared stewardship for the systematic safety, environmental and quality performance of vessels across offices; working 360 degrees to manage the technical, operational, commercial & compliance aspect of vessel activities, and to develop strategic growth initiatives and add credibility to the brand.

Key Achievements:

- Successfully controlled vessels' operating budgets, funding positions and business overheads, ensuring the prompt collection of management fees & invoices.
- Diligently mentored and developed high-performing talent to place them within challenging roles of successorship.
- Rigorously trained employees to gain key industry competencies and accomplish stretch goals in demanding realms.
- Developed a strong base of key clients by improving service level via prompt investigation & resolution of complaints.
- Dedicatedly built a culture of safety by reviewing & sharing incident reports with all fleet cell members & stakeholders.
- Ensured full compliance to company QMS, corporate policies and regulatory requirements to deliver highest standards of ship management practice.

STOLT NIELSEN

[A global leader in the transportation and storage of speciality chemicals and other bulk liquids.]

**General Manager Asia Pacific, Singapore
Jan 2013 - May 2015**

Responsible for the safe & efficient management of a fleet of 20 high-end Chemical Tankers ranging from 11000 - 40000 DWT, I oversaw a team of 12 maritime professionals in the compilation of vessel operating budget and its full compliance with Stolt Safety & Quality Management System, TMSA and core values.

- Appointed member of the BOD for the Stolt Nielsen and Sinochem JV, comprising of 11 stainless steel Chemical Tankers operating on the Chinese coastal and Asian trades.
- The attendee of the bi-annual Board meetings for the JV of eight 12000DWT Chemical Tankers, jointly owned by Stolt & NYK and operated within the Stolt Asia pool.

GULF STOLT SHIP MANAGEMENT JLT

[A JV between *Gulf* Navigation Holding PJSC & Stolt Tankers, providing a complete range of integrated marine services.]

**General Manager - Marine & Operations, Dubai
Nov 2011 - Jan 2013**

Principal Advisor to the GSSM Technical Management Team on chemical tanker related requirements & expectations, I shouldered responsibility for all operational, technical & project matters for GSSM managed vessels; overseeing Charter Party teams and third-party inspections, viz: Flag State, Charterers, and PSC. Leading the in-house management of tank coating related warranties & failures, I monitored and reported changes in marine legislation as applicable to the Fleet and Company; with the further responsibility to update Chemical & Oil Tanker Manuals and Operations procedures.

Key Achievements:

- Diligently oversaw GSSM marine operations to deliver optimum performance and significant management efficiencies.
- Critically directed vetting and CDI management to ensure positive trend and customer acceptance

INTERNATIONAL TANKER MANAGEMENT (I.T.M)

[A Global Ship Management Company with specialisation in Oil and Chemical Tankers]

Global Marine Director, Dubai - U.A.E

Jul 2008 - Nov 2011

Designated Person Ashore (DPA) and Management Representative (MR) as per the ISM & ISO codes, I spearheaded all Marine operations, vetting, safety, quality and post-fixture management of ITM vessels under technical management; meticulously managing business lines in Marine Consultancy for third parties globally, encompassing all tanker operations and solutions.

Key Achievements:

- Carefully monitored the vetting process of Group vessels, liaising with the Oil Majors to maintain positive screening results.
- Directed and developed competent Fleet Managers for all Chemical Tankers under technical management with ITM.
- Ensured company's adherence and up-to-date follow up with all regulatory requirements of the industry.
- Chairman for ITM sea & shore staff safety, technical and operations semi-annual conferences, I played a key role in the further development of group consultancy market.

NOBLE DENTON TANKER SERVICES

[International Marine & Engineering Consultants and Surveyors.]

Principal Surveyor, Middle East

2006 - Jun 2008

Undertaking the full spectrum of chemical tanker consultancy services viz. Tanker pre-purchase inspections, condition & suitability surveys; STS/pilotage operations (SPM, tandem mooring & underway); P&I and H&M inspections and entry/damage surveys for insurance purposes. An OCIMF SIRE inspector for four oil majors (Chemical & Petroleum), plus accredited CDI inspector, I worked as a warranty surveyor for specialist marine projects such as "load off" for Caspian Sea gas modules in the port of Jebel Ali. I was further responsible for surveying and piloting for manoeuvring jack-up oil rigs in Dubai dry-docks
