OVERVIEW

A highly experienced master mariner with a specific knowledge of the container shipping sector having served as master onboard a wide variety of vessels over a 25-year period.

QUALIFICATIONS

British Class 1 (Master Mariner) certificate of competency II/2
STCW revalidated every 5 years and currently extended until 12 May 2021. All supporting STCW certification is valid accordingly.
ECDIS, GMDSS and Security Training are all valid at the time of writing.

APPOINTMENTS and RESPONSIBILITIES

TMC Marine Consultants Ltd

Consultant Master Mariner (December 2018 – present date)

- Providing expert witness and accident investigation input principally for container ship work including IMDG incidents and fires, stow collapses, new building disputes, performance disputes etc.

2009 to Dec 2019

Worked principally for the New Building department of Orient Overseas Container Lines Limited (OOCL) in Hong Kong and in their on-site offices at Geoje Samsung shipyard in South Korea.

- During that time I worked on plan and contract approval, attended inspections in the shipyard and at sub-contractors' yards, completed sea trials and the delivery voyages of container vessels of all sizes from the old Panamax sized of around 4,500TEU, then conventional 8,500TEU sized vessels, to the new configured panamax sized vessel with forward accommodation and 12,500TEU capacity.
- Last and most recently were 6 x vessels of around 23,000TEU.

2003 to 2009

- Master of all sizes of container vessels in global trading and iced classed container vessels on the North Atlantic to Montreal service

1998 to 2003

Employed by TMC Marine Consultants London

- Providing expert witness and accident investigation input principally for container ship work including IMDG incidents and fires, stow collapses, new building disputes, performance disputes etc.

1983 to 1998

- Sailed on all sizes of container vessels globally including the St Lawrence to Europe trade on Ice Classed vessels, rose through the certification and ranks.
- Obtained HND in Nautical Science at Southampton University Warsash campus.
- As Chief Officer I attended several newbuild and major modification projects in Asian shipyards and routine dry dockings in Asian and European shipyards.
- Appointed Master in November 1994.
- During 1994 and 1996/7 I spent several periods working in the Head Office writing manuals and training books for the company's preparation for ISM and STCW compliance.

–

1978 to 1982

Completed the standard MNTB deck cadetship with the Furness Withy group of companies

- Sailing on all types of vessel including Bulk Carriers, Tankers, Gas ships, General Cargo, Reefer Container, & Ice Classed Container ships. Completed the Class 3 Deck officer examinations and ONC in Nautical science at Greenhithe Merchant Navy College Kent.

1970 to 1978 Education in UK schooling system.
